**Mongoose**

**MONGOOSE  
DUMP TRAILER**

## QUALITY THAT WORKS

Designed to be the ideal trailer  
in the most difficult situations.

## MONGOOSE DESIGN

The Mongoose is designed with an  
abrasion and impact resistant AR-  
450 steel body which has proven  
itself under pressure.

## AVAILABLE TAILGATE DESIGNS

### TOP HINGE

Standard tailgate with  
top hinges

### DOUBLE ACTING BARN DOOR

Barn door tailgate with  
hinges on top and on  
side

### SINGLE ACTING BARN DOOR

Standard tailgate with  
top hinges

### HI-LIFT COMBO

Dual Hi-Lift & standard  
gate operation

## HI-DUMP CONFIGURATION

The combination of a compression arm connecting the  
draft arms to the suspension sub-frame and "all wheels on  
the ground" makes the Hi-Dump the ultimate in stability.

The hinge at the rear of the body ensures high dumping  
clearance from the body to the ground.

Loads shed more easily and the stock pile height is  
improved. The rear hinge makes it possible to effectively  
dump into an asphalt paving machine greatly increasing  
the versatility of the trailer.
